

# Priorin®

WITH BIOTIN, L-CYSTINE, MILLET  
EXTRACT, AND PANTOTHENIC ACID

## New Improved Formula - with Biotin

### A unique formula that maintains healthy hair

The hair root plays the central role in hair growth: here the hair cells are built and the hair gets its color. As it is a metabolic intensive process, for a healthy hair a optimal supply of the hair root with nutrients is very important.

Priorin's unique composition comprises Biotin, L-Cystine, Millet Extract, and Pantothenic acid:

**Biotin** is also called Vitamin H or Skin Vitamin as it is essential for the maintenance of healthy skin and skin appendages (hair and nails). Like all Vitamins, Biotin has to be taken up in a sufficient amount with the diet.

**Cystine** is a sulfur containing amino acid which is an essential building block of keratin, a main component of hair and nails.

**Millet Extract** is coming from one of the oldest cultivated plants in the world and contains milliacin and several fatty acids like oleic acid and linoleic acid.

**Pantothenic acid** is a component of the vitamin-B complex.

### How long should you take Priorin?

Priorin is for the maintenance of normal hair growth and helps to reduce hair loss.

It is recommended to use Priorin for a period of three to six months. The same can be repeated throughout the year if

necessary. Priorin is suitable for long term use. Priorin is not a substitute for a well-balanced diet or a healthy lifestyle.

### How should you take Priorin?

Take two capsules daily with a glass of water after food. The capsules can be taken separately or at the same time. Priorin is suitable for adults and children aged 12 years and over. Do not exceed the stated dose.

Product is not intended for use in Children under 12 years of age.

### Storage

Store below 30°C and protect from heat and moisture. Do not use after the expiry date as mentioned on the pack. Keep out of the reach and sight of children.

#### Ingredients:

Carrier: wheat germ oil; millet extract; gelling agent: gelatin (Halal); humectant; glycerol; thickener: yellow beeswax; calcium pantothenate; emulsifier: lecithin; cystine; stabilizer: magnesium oxide; colourants: E172, E171; flavour: vanillin, p-methoxyacetophenone; biotin; lubricant agent: medium chain triglycerides.

#### Tips for Healthy Hair

The correct hair care regime is important to maintain the condition of healthy hair. The following rules should be observed:

1. Use a gentle shampoo.
2. Rinse properly. The rinsing period should be longer than the washing period.
3. Do not use excessive heat to dry your hair.  
The healthiest way is to air dry the hair.
4. Only use good quality brushers and combs with rounded bristles.
5. Wear long hair loose as often as possible. Elasticated hair ties and Scrunches can damage the hair.
6. Avoid coloring or perming your hair.
7. A balanced diet helps maintain a healthy body and healthy hair.
